

Preparing Teachers for EDNET Technology

An extensive reference and resource manual for secondary level educators [working toward certification](#) to teach on the EDNET system.

MISSION STATEMENT:

EDNET faculty training provides training for teachers that focuses on the key concepts of accessing information, resources, and people (team approach) to produce organized, creative, meaningful and engaging instruction, utilizing the EDNET technology. The outcome is a quality learning experience for students maximizing the capabilities of the delivery system.

--May 12, 1995

This manual is over two years in the making and has been authored by some of the top distance learning practitioners in Utah.

EDNET FACULTY TRAINING WRITING TEAM

Doug Jones, Utah Education Network
Ronda Menlove, River Heights Elementary, Logan, Utah
George Miller, Utah State University/Utah State Office of Education
Dale Steadman, Utah State Office of Education
